RATIOS AND TOLERANCES APPLIED FOR LONG RAMPS - 6.80M - 7.10M LENGTH

Since 2019, longer ramps, with out of water length up to 7.1m, are permitted. Ratios and tolerances for these 'long' ramps differ from older 'short' ramps. Please take care that the settings used are within tolerance for the type of ramp used. This numbers and the chart above apply ONLY TO LONGER RAMPS. With shorter ramps, please use the chart for ramps 6.40m - 6.80m in length.
